PROFILE

I help organizations adopt AI safely and get real value from it, combining six years of risk and program management with research on AI governance and AI fluency. I translate between technical teams and leadership, turning frameworks into controls people follow and research into tools people use.

EXPERIENCE

AI & Cybersecurity Research Assistant · Marymount University — 2026 – Present
- Built a five-layer framework scoring six AI governance and security standards on agentic AI risk coverage.
- Designed the Cybersecurity & AI Capital Model (CCM) to measure AI fluency and workforce readiness; turned it into a free AI Fluency Check and a 4-week AI Readiness Toolkit.

Graduate Assistant · Marymount University — Jan 2025 – Present
- Mentor 15+ students; manage program assessment, data analysis and reporting; support accreditation work.

Project Analyst, Development Programs · Embassy of France — Sep 2024 – Jan 2025
- Managed a multi-sector portfolio, including programs on cyber-facilitated gender-based violence and in conflict-affected regions.
- Wrote evaluation reports for the French Ministry of Europe and Foreign Affairs and briefing notes for the Ambassador.

Business Development & Operations Risk Manager · Hentig International — Dec 2022 – Sep 2024
- Owned the company risk register, tracking exposure, owners and mitigation plans, and reported risk to senior leadership.
- Designed internal controls and ran due diligence on vendors, partners, clients and new markets.

HR Project Manager, Learning & Development · Wilmar International — Oct 2021 – Dec 2022
- Led a cross-regional training program across Ethiopia, Tanzania, India and Singapore, with Power BI dashboards to track results.

Assistant to the General Manager · Hentig International — Sep 2020 – Oct 2021
- Supported staff management, budgets and performance reporting against sales goals.
